

## Spotlight: Students Celebrate St. Serra Facilities Team for National Custodian Appreciation Day

Our Advanced Plus students in Grades 2-4 made appreciation notes and cards for our facilities team in honor of National Custodian Day on October 2, 2021. The facilities team, led by Mr. Jesse Lopez, is comprised of 5 staff members who work tirelessly throughout the year to keep our school in the best shape for our students.

Our St. Serra students wanted to recognize the hard work that it takes to keep our school facilities in tip-top shape, especially the facilities team that work diligently to ensure we have a school and workplace that are beautifully kept.

Second grade students in Mrs. Leavey's Advanced Plus class presented members of the facilities team their words of gratitude on Monday, October 4. Our third and fourth grade students in Mrs. Peterson's Advanced Plus class did a second presentation to the facilities team employees who arrive for the evening shift, sharing their cards and words of thanks later that day. "Our hardworking facilities team are the heart of our school," said Mrs. Leavey, Advanced Plus ELA and Math Teacher. "The students were very excited to thank the team and Mr. Lopez!"

As a Catholic school, it is important we instill these values in our students – appreciation and kindness. Bears, we are proud of your thoughtfulness. Thank you for being wonderful stewards of God!
