Dream Skills Schedule

PART 1

Dream Swing (throughout February)

Zero Hero – Achieving '0' in terms of clubhead path and clubface aim at impact (coupled with a centre strike from the face) results in straight golf shots. Simply make 10 full golf swings attempting to get as close to '0' (neutral) as possible.

PART 2

Dream Approach (throughout March)

Flightscope Finesse – The 40 yard pitch is arguably one of the trickiest shots to master. Using 'Flightscope' test your distance control by attempting to hit 10 balls inside the bullseye. Points awarded according to proximity.

PART 3

Dream Putt (throughout April)

SAM Lab – Test your tendencies, timing and consistency using Dreamlands start of the art putting technology. Simply perform 10 of your best strokes from 7 feet for the system to calculate an overall rating. Best percentage wins.
