

S/Y SKY BLU

SKY BLU is indeed a worthwhile experience. The saloon and cabins are exceptionally well-lit. Its four cabin layout and four bathrooms make the vessel perfect for a medium-sized group. This elegant interior can comfortably sleep eight persons. The cockpit and specifically the dining area to the left is situated directly behind the large, U-shaped galley in the main saloon, which has its own specially designed sliding window behind the sink. In actuality, when the sliding doors of the cockpit are opened as well, there's virtually no separation between the interior saloon and the exterior living area. It's one big open space, perfect for holding functions and for outdoor living.

# Specifications

- Length: 14.00 meters /45.11 ft
- Beam: 7.80 meters / 25.7 ft
- Draft: 1.30 meters / 4.3 ft
- Rig: Sloop
- Built: 2018
- Builder: Lagoon
