

PursuitAlert is seeking recently retired or soon to be retired officers in various locations around the country that are FBI National Academy graduates to represent our company as commissioned sales representatives.

PursuitAlert is a state of the art warning system to alert motorists and civilians when they are in the immediate vicinity of an active high-speed police pursuit. There may be other vertical markets as well with the same technology.

Being an NA graduate myself, I can't think of better company representatives than fellow active NA members.

More information about our company and newly released technology is available at www.pursuitalert.com. Resumes or letters of interest can be emailed to support@pursuitalert.com. Questions can be directed to me at [864-303-2254](tel:864-303-2254).
