

5th Annual King Tide Event

Sunday, October 18, 2020 - 7 pm EST

What Sea Level Rise Means to Me

- 
- The background of the central text box is a photograph showing a body of water in the foreground with ripples, and a grassy area with a concrete path in the background.
- Please join us to explore how to communicate climate risks in ways that make it relevant to and compelling for South Florida. How many days of flooding are happening and how will the numbers increase? How is sea level rise impacting the Everglades? How are South Florida communities differently impacted? How can we be preventive instead of reactive? We will discuss these issues and more, with interesting facts that you can share to get your community to care and to act.
 - Featured Speakers: Dr. Kilan Ashad-Bishop, Dr. Keren Bolter, Dr. Jennifer Jurado, and Broward Commissioner Beam Furr

Teen Student Service Hours:

- Receive 1 hour for participating in the Zoom event polls.
- Receive 1 additional hour for each of the following: submitting two pictures of flooding in your area or writing a letter to a newspaper or elected official about flooding or climate change. Additional outreach suggestions will be provided at the Event. For hours credit, submit your photos/letters to:
sealevelrisesolutions@gmail.com.

Register for Zoom Event:
