

August 30, 2022

Updates from IACUC chair:

Greetings for Fall 2022! As the Chair of the Institutional Animal Care and Use Committee (IACUC) at A&M-San Antonio, I am writing to provide you with programmatic updates.

This summer the IACUC created guidelines covering the display and demonstration using privately owned vertebrate animals. This is applicable if you bring vertebrate animals for display or demonstration on campus for events that involve students, faculty and/or staff. Visit the [IACUC website](#) to view these documents, forms, and other details.

IACUC approved an SOP for use of vertebrate animal tissue on campus. You can register your vertebrate animal tissues by submitting a tissue use form. The IACUC website has further details.

IACUC office will offer consultation or help with protocols. Please contact iacuc@tamusa.edu with any questions.

Best wishes for a productive semester ahead!
