**ARE YOU
GETTING THE
MOST OUT OF
YOUR DATA?**

TOP FIVE WAYS AI PLATFORMS HELP IMPROVE EFFICIENCY

By utilizing a combination of artificial intelligence and human analysis, you can more accurately and efficiently process and interrogate your contracts and agreements. Simply put, Human Assisted Artificial Intelligence enables more thorough, accurate, and efficient contract analysis than was previously possible.

1

REDUCE MANUAL DUE DILIGENCE AND CONTRACT ANALYSIS

- Reduce manual data entry by over 50%
- Quickly process thousands of documents and understand every obligation, opportunity, limitation, and risk
- Evaluate provisions that affect your A&D operations, like assignment restrictions and rights of first refusal

2

FOCUS ON THE ITEMS THAT MATTER

- Facilitate rapid identification of even the most detailed facts and enhance the analyst's ability to paint a more accurate and comprehensive picture with those facts
- Minimize contract risk with thorough analysis of the areas of risk across your organization
- Know more critical details to ensure proper planning, thorough design, and timely construction

3

MANAGE YOUR LEASEHOLD WITH COMPLETE CONFIDENCE

- Give your company the confidence to make fast, decisive, and accurate decisions
- Clearly understand obligations and opportunities, such as construction requirements, easement dimensions, and ingress/egress restrictions
- Plan your projects more efficiently and ensure compliance with your contracts

4

STREAMLINE ACQUISITIONS AND DIVESTITURES

- Easily identify your Hard Consents, Notice Requirements, Pref Rights, and Drilling Obligations in minutes
- Leverage automated analysis during negotiations to quickly understand the implications of long-term land usage agreements

5

RAPIDLY STAFF UP AND DOWN AS NEEDED

- Place contractors in your office or utilize Paramount's large back office staff
- Immediately address workload needs and address contract risk without adding long term payroll liability
- Paramount handles everything from the interview process to compliance management and payment

CASE STUDIES:

CHALLENGE

A PE backed midstream company was evaluating a prospect in bankruptcy and was under a tight deadline and budget to review the seller's ROW agreements.

RESULTS

Paramount delivered a solution to expedite the review by utilizing their expertise in ThoughtTrace to organize the data and hone in on the most important provisions, such as Consent to Assign, Abandonment, Non-Use, Termination, Product, and Pipe Dimension. Paramount was able to review 4x more provisions than the client expected, two days prior to the deadline, for half the client's budget.

CHALLENGE

A super major had just completed a multi billion-dollar acquisition and needed extensive lease analysis support for data integration.

RESULTS

Paramount provided a large team of Lease Analysts and crafted expert processes utilizing ThoughtTrace to review, resolve scanning issues, and process all the operations-driving provisions contained in thousands of leases. Paramount was able to accomplish this task with 4x the accuracy and 2x faster than doing the same via manual review. The client was so impressed with the expertise and professionalism of the Paramount team that they gave additional work in new basins and have consulted with the management team on efficient workflow processes.

Everything we do is paramount. From our fanatical attention to detail and efficiency to our responsive communication, we go above and beyond to build lasting relationships.
