

## Opt-In/Opt-Out Form

Processing 7 Days a Week Requires All Credit Unions to Take Action

### INTRODUCING 7 DAY PROCESSING

CU\*NorthWest is adding 7 Day Processing on June 9, 2019. 7 Day Processing means you have the option of allowing CU\*BASE to process on your behalf on Sundays, seven days a week instead of six. Advantages of going to Sunday processing include allowing your credit union to stay current with how your members do business, collecting data every day, and processing transactions exactly when your members expect.

Our FAQ, 247 FAQ, has detailed information on how 7 Day Processing works.

### OPTING-IN TO 7 DAY PROCESSING

In the spirit of cooperation, CU\*NorthWest allows credit unions to make choices. The ability to process transactions 7 days a week is one of those decisions. Your credit union is not required to move to 7 Day Processing, however there will be a \$100.00 monthly deviated processing charge if you do not opt-in.

### I WANT MY BRANCHES OPEN ON SUNDAY

Your credit union will not automatically be able to have brick and mortar branches be functional as a result of this switch to 7 Day Processing. We do have credit unions with branches open on Sunday. If you would like to explore this possibility for your institution, simply select Learn More about Sunday Branch Openings, and CU\*NorthWest will get back to you on what we need to get started on this project.

### I'M ALREADY ON 24/7 PROCESSING

Some of our credit unions are already processing on Sunday. If you are one of these credit unions, you do not need to re-enroll
