

Some people have criminal records or behavioral health diagnoses in their history that prevent them from getting available housing.

Landlords can be the ones to change that.

**As a landlord, YOU are eligible to
receive money if you rent to this
population!**

Landlords have the power to help
people in need find housing that is
suitable for them.

Landlords can bridge gaps for
people who need a place to call
home.

**Warren and Clinton Counties supports our landlords and the value that
they bring to helping people in need.**

Funding is only available for private landlords who offer provide permanent
housing settings in Warren or Clinton Counties.
