

### OPERATION SMOKE DETECTOR

The Enterprise Fire Department would like to invite you to participate in a golf tournament to benefit our Community Risk Reduction Program. This particular event will benefit our smoke detector program.

As we all know smoke detectors help save lives by warning residents of a fire in time to escape. Our department has seen that there are too many homes without smoke alarms in the City of Enterprise.

The "City of Progress" should not have absent or non-working smoke detectors in any home.

We are asking for your assistance and support in making this golf tournament a successful event. You can help by participating in the event, being a sponsor, or donating items that can be raffled/auctioned off during the event.
