“ The thing I like most about working in this industry is seeing customers excitement during, and at the completion of their new home. It is the excitement of seeing a piece of dirt turn in to their dream home. ”

~ Scott, Owner - Southern Home Builders

Career Spotlight

CARPENTER

Construct, erect, install, or repair structures and fixtures made of wood, such as concrete forms; building frameworks, including partitions, joists, studding, and rafters; and wood stairways, window and door frames, and hardwood floors. May also install cabinets, siding, drywall and batt or roll insulation. One of the most versatile construction trades. Many carpenters are self-employed.

WOW Event Operators - CONSTRUCTION/BUILDING SCIENCE
