

Dear Students, Are you doing alright at St Rose de lima school in the United States? We are happy and truly appreciate the beautiful letters you sent to us. What made us even happier is the way the letters were written, with care & love. We hope that God will show you more ways to develop your partnership with us, so that we can learn from each other. We should always continue to learn from one another.

Thank you for the economic, the moral support you give to us.

May god bless you

We are praying alot for you.

Jenie
