

AUGUST 2021 PRAYER REQUESTS

DISAPPEARANCE OF TITUS DAVIS

There are still no leads or any kind of information that indicate the location of Titus or his condition. No one knows the motive behind his disappearance. He was last seen at 10:00 am on June 24. Pray for his safety. Pray that if anyone has abducted him, they will release him soon and unharmed. Pray for his wife Dorcas, his family and his ministry partners.

PANDEMIC IN INDIA

Although trainers and pastors associated with Meridian in India were infected with COVID-19, Debananda Malik in Orissa reports that his wife Anu and youngest son are well again with no lasting effects from the virus. Dhanraj Kota's family from Telegana have recovered and those with whom he works are also doing well.

MASTER TRAINERS ON THE GO!

Pray for **Musa** in Sierra Leone who is taking the Gospel to 200 villages this year. (He has already visited 150.) **Gomet** in Cote d'Voir is taking training to Bloléquin City, Cote d'Voir. **Samuel** is continuing master training in Domagbamatina, Liberia, the first week of August. Pastor **Roby** and Pastor **Victor** are conducting training for the Fulani in Nigeria this week. During August, Pastor **Wali** is conducting training for approximately 30 leaders in two villages.

THREE ADDITIONAL COUNTRIES

Pray as we contemplate starting up training in Peru, Mexico and Kenya, Africa. We initiated training in Peru, but COVID-19 stalled out our plans, but we are willing and anxious to go. Mexico is another country we are praying about. Although we have been approached about training there, we don't have an official invitation. Pray that we will receive a serious request to go there and train. We have received two separate invitations to go to Kenya, East Africa, to train indigenous believers how to use Bible stories to reach their villages with the Gospel of Jesus. We are considering using Zoom to train leaders until we can make a training trip in person.

NEW DIRECTIONS

There are indications that Meridian University should consider increasing our stateside training and develop training videos in English to be accessed internationally for the purpose of evangelism, discipleship, church planting/church health and biblical leadership. Also, we are exploring the possibility of offering training for bi-vocational leaders to help them sustain their ministries through agriculture.
