

PROTEHI I LINA'LATA (Protect GUAM'S Livelihood)

My company supports Protehi I Lina'lata. As with many in our industry, we are struggling to survive and the assistance they are proposing will help us to maintain employment and be ready to provide services to visitors expect when they return. Without the kind of help proposed by Protehi I Lina'lata, we question if Guam will be ready for visitors and Guam will lose vitally needed revenue and jobs such revenues support. Without tourism I fear the entire economy will be in great trouble. Please support the program proposed by our friends at Protehi I Lina'lata. It is good for Guam and it will save jobs and help our economy recover sooner.
