###

About the 2022 Economic Census of Island Areas for Guam

The Economic Census of Island Areas is the U.S. government's official five-year measure of employer businesses in Guam. The economic census is the primary source of statistics about the structure and functioning of Guam's economy, serving as part of the framework for the national accounts of the territory.

These statistics include the number of establishments, total employment, annual payroll and total sales, receipts or revenue. Data on expenses, inventories and a wide variety of statistics are also available for selected sectors. Data are available at detailed industry and geography levels, including by municipality in Guam.
