DEPARTMENT OF VITICULTURE AND ENOLOGY

WEEKLY VITICULTURE-ENOLOGY 199 FALL SEMINAR SERIES WEBINAR

Wednesdays from noon to 1 pm *— On ZOOM — Visit fresnostate.edu/jcast/ve

WEDNESDAY, SEPTEMBER 15, 2021

FEATURING BENJAMIN BOIS

Assistant Professor of Viticulture/Climatologie
Université de Bourgogne, France

Benjamin Bois is an assistant professor ("maître de conference") at the University of Burgundy, in Dijon, France. He teaches viticulture, GIS, terroir and climatology at the University Institute of Vine and Wine (IUVV - Institut "Jules Guyot"). His research, performed within the Climate Research Center (Biogeosciences lab, University of Burgundy) focuses on climate / viticulture relationships, with a specific interest in the role of climate in the terroir effect.

In 2002, Benjamin was graduated as an Engineer/Master in viticulture from Bordeaux Science Agro College. He has worked in 2002, 2003 and 2004 as a winemaker at Chateau Lagarosse, a 30 ha vineyard in the Premières Côtes de Bordeaux appellation of origin. His curiosity in understanding the Terroir led him to shift from grape production to research. In December 2004, he started a PhD thesis in Bordeaux University concerning the spatial variability of climate within the Bordeaux wine growing region and its impact on grapevine development and grape quality. He defended his thesis in 2007, when he started to work as an assistant professor at the University of Burgundy, another wine growing region where Terroir as a large significance for wine. Benjamin Bois has been president of the Viticulture Commission of the International Organization of Vine and Wine from 2015 to 2018.

"Climate Zoning and Change"
