

VERMONT AGENCY OF TRANSPORTATION

The Vermont Agency of Transportation

would like to keep you informed regarding a **ROADWAY PROJECT** occurring at the intersection of Route 116, Shelburne Falls Road, and CVU Road. Work is scheduled to begin in early July and will continue through the end of 2020.

Construction activities include road widening on Route 116, Shelburne Falls Road and CVU Road for the addition of new turn lanes and replacement of the existing traffic signal. Culverts on Route 116, Ballards Corner Road, Shelburne Falls Road and Pleasant View Lane will be replaced as part of the project.

Most work on this project will be performed during daytime work hours, with the exception of final paving and some culvert work, which will be completed at night. During daytime peak travel hours, one lane of travel will be maintained in each direction. Peak hours are defined as the time periods Monday through Friday from 6:00 AM to 9:00 AM, and from 3:00 PM to 6:00 PM. Alternating one-way traffic will be permitted at all other hours of the work day.

A road closure on Shelburne Falls Rd. will be required for culvert replacement work on Pleasant View Lane and Shelburne Falls Rd. Access to Pleasant View Lane will be maintained during the closure. We anticipate this work will take place in August. The 60-hour closure period will begin on a Friday night at 6:00 PM and the road will reopen by Monday at 6:00 AM. Night work will be allowed for culvert installation during the road closure. Signed detours will be in effect throughout the closure period.

Weekly construction updates are sent out via email on Thursdays. If you would like to be included on this list, please send an email to Natalie Boyle at nboyle@eivtech.com, using "Hinesburg" in the subject line, and you will receive updates as they go out.

Please contact public information consultant Natalie Boyle at 802-855-3893 or nboyle@eivtech.com if you have any questions.
