SAFETY TOPICS

Covers essential workplace safety practices to prevent injuries, reduce risks, and promote overall job site awareness.

OSHA-10

Provides fundamental safety training for construction and trade jobs, ensuring workers understand proper procedures and hazard prevention.

CDL PERMIT:

Equips participants with the necessary knowledge and driving skills to prepare for and pass the commercial driver's license exam.

ELECTRICAL 101

Introduces key electrical concepts, including wiring techniques, circuitry basics, and critical safety procedures for handling electrical systems.

CLIMBING SKILLS:

Focuses on proper climbing techniques for poles and elevated structures, emphasizing balance, equipment usage, and risk reduction.

CAST TEST PREP:

Helps participants strengthen their math, mechanical, and reasoning skills to improve performance on the CAST exam, a key step in technical careers.

SUBSTATION WORK

Ensures a strong understanding of the construction, maintenance, and operation of this specialized field.

QUALIFICATIONS

- ✓ At least 18 years old
