COVID-19, along with other infectious diseases has brought an awareness to many for the need to disinfect and sanitize contained spaces...

At Staff Pro, we are helping to flatten the curve in the battle against COVID-19 so that you, your business, your employees, your community can thrive again. Together – we are contributing to the “new normal”.

To protect the people that keep businesses SUCCESSFUL, homes WELCOMING and communities ACTIVE - Call Staff Pro to Properly Disinfect / Sanitize:

- HOTELS
- MEDICAL FACILITIES
- DISTRIBUTION CENTERS
- SCHOOLS
- WAREHOUSES
- CORPORATE BUILDINGS
- RETAIL STORES
- OFFICES
- RESIDENCES

Staff Pro's technicians are geared up with appropriate PPE, PROTEXUS Electrostatic Sprayers that coat surfaces with 360° coverage and *PURTABLES - an EPA Registered Class N Disinfectant, only available as a concentrated effervescent tablet for dilution - not caustic or corrosive and is 99.99% effective against COVID-19.

*(EPA Reg. No. 71847-6-91524)

BENEFIT OF ELECTROSTATIC SPRAYERS? Electrostatic delivery technology is a revolutionary approach to infectious disease protection and sanitization. The electrostatic process atomizes the cleaning product with high pressurized air. The droplets pass an electrode inside the nozzle creating a magnetically charged spray that seeks out and wraps around all touch points and grounded room surfaces. As most surface areas are neutral (uncharged) or negative, our method includes: PURTABLES disinfectant application via our PROTEXUS sprayers to deliver electrostatic force of attraction oppositely charging the surface with remarkable force. The Electrostatic spray application system optimizes adhesion and attraction and is 8x more effective than non-charged sprayers.

PROTEXUS electrostatic sprayers deliver a Touchless Disinfection / Sanitization in minutes. No wiping necessary.

Staff Pro’s electrostatic disinfection application system will present you with a viable and cost-effective method in the battle against COVID-19.
