PrevaGuard, an EPA registered antimicrobial additive is molded directly into the pen's plastic components. This helps suppress the growth of bacteria, molds, mildew and fungi, especially in high-moisture environments.

## Benefits of PrevaGuard Additive:

- Includes various elements, such as Zinc, which is known to have many health benefit properties that have been known to help strengthen immunities
- Enhances product freshness, fights undesired odors, staining and product degradation
- Should last the life of the plastic, unless the plastic is destroyed
