

# Online Survey: Help Improve Resources for Schizophrenia – Share Your Experience!

**Are you living with schizophrenia,  
or are you a caregiver for someone  
who is?**

We invite you to participate in a **20–25 minute online survey** to share your experiences and needs related to care and daily life. Your insights will help shape educational resources and support for individuals affected by schizophrenia.

**As a thank-you, you can choose to provide your name and email to receive a \$30 Amazon gift card upon completing the survey.**
