## **ADVENT EXPANDS IN MINNEAPOLIS, CELEBRATING 20 YEARS OF IN-OFFICE NOSE AND THROAT SOLUTIONS**

### **New Facility in Eden Prairie Opens Monday, March 31; Now Accepting New Patient Appointments**

**MINNEAPOLIS** – Celebrating its 20<sup>th</sup> anniversary and known for its unique nasal-first approach to airway and breathing concerns, **ADVENT** is expanding within Minneapolis with its 32<sup>nd</sup> location in Eden Prairie. Already established across six states, this clinic represents ADVENT's fifth location in the Twin Cities, bringing its world-leading in-office Breathing Triangle solutions to another community. The new clinic, located at 6640 Shady Oak Rd, Ste. 255, opens Monday, March 31.

Founded in 2004 by CEO Madan Kandula, MD, and Gwen Kandula, AuD, MBA, in Milwaukee, ADVENT has pioneered convenient, efficient and effective in-office treatments for nasal blockage, sinus issues, snoring and sleep apnea. ADVENT helps patients break free from ineffective healthcare treatments, allowing them to leave behind the frustration of pharmacy aisles, nasal sprays and sleep aids.

"I see so many patients who are frustrated with the ineffective treatments they have been provided by big healthcare systems," says Dr. Kandula. "The cycle stops here. We understand. We listen. We change lives. In turn we flip the script on how medical practices operate on a national level and are thrilled to be bringing the most advanced and unintrusive, in-office treatments for nose and throat issues to Minneapolis' patients in need."

**Otolaryngologists and sinus specialists at ADVENT's Eden Prairie clinic provide simple in-office Breathing Triangle solutions, including sleep apnea treatments, snoring help and relief from chronic congestion. New patient appointments can be booked online within 60 seconds at [ADVENTknows.com](http://ADVENTknows.com) or by calling (888) 938-3838.**

#### **ABOUT ADVENT**

Celebrating its 20<sup>th</sup> anniversary, ADVENT's world-leading Airway-Breathing model of care is dramatically different and more effective than the standard approach. A team of highly trained medical professionals determine the root of the problem and deliver customized treatment plans to properly treat issues within The Breathing Triangle®, a term coined by Kandula to illustrate the interconnection of the nose and throat as a main driver to breathing and sleep issues that are massively underdiagnosed in America. Unique offerings for patients include in-office CT scans, at-home sleep studies and in-office procedures with little to zero down time. ADVENT routinely treats patients who have had previously unsuccessful surgeries and is often able to deliver better results with less invasive procedures.

-more-

With the addition of this new facility in Eden Prairie (Minneapolis), ADVENT now operates 32 clinics across six states, including Chicago Loop, Joliet, Naperville, Northbrook, Oak Park, Rockford, Schaumburg, Tinley Park and Vernon Hills in Illinois; Avon, Goshen, Keystone Crossing, South Bend and Southport in Indiana; Blaine, Eagan, Maple Grove and Woodbury in Twin Cities area, Minnesota; Columbus (Dublin) and Dayton (Miamisburg) in Ohio; Nashville (Franklin) in Tennessee; and Appleton, Green Bay, Madison, Mequon, Milwaukee (Wauwatosa), Oak Creek, Oconomowoc, Plover and Pleasant Prairie in Wisconsin.

To book appointments or for more information on locations, services and how ADVENT can free patients from the pharmacy aisle, visit [ADVENTknows.com](http://ADVENTknows.com), call (888) 938-3838 or follow on social at @adventknows.
