# Make a Kazoo!

Materials Needed:

- Cardboard tube (paper towel or toilet paper tube)
- Wax paper
- Rubber band
- Sharp pencil (or other sharp object to poke a hole)
- Paint or other art supplies to decorate your kazoo

**Directions:**

*Cover the end of your cardboard tube with wax paper. Secure it with a rubber band.

*Poke a hole in the side of the tube using the sharp pencil or other sharp object.

*Put the open end of your tube up to your mouth and hum or say “do” over and over to make a kazoo sound.

*Paint or decorate your kazoo if you wish.

*Poke more holes in your kazoo. Does that change the sound?

*Does a paper towel roll kazoo sound different than a toilet paper kazoo?

*Do the sounds change when you hum different tunes?

Have Fun!
