

My name is Shawn Latta, and I am Partner at Nuclei Data. I was born Cheyenne, Wyoming and moved to Pennsylvania 3 years ago. A few hobbies of mine are golfing, being outdoors, watching my favorite sports teams, and spending time with my family.

I am a graduate of Florida Gulf Coast University with a degree in Market Research. Prior to starting Nuclei, I worked at a national data center company analyzing data and supporting daily operation. I have been in various technology and management roles for the last 15 years.

At Nuclei Data, we support businesses by solving their unique problems through numbers, and creating custom solutions tailored for their business. Nuclei has been helping businesses solve problems by leveraging their data to make data-driven decisions leading to improved operations, and to create a competitive advantage over the competition.
