

Compliance Solutions, LLC Newsletter Spotlight January 2020

**ACCEL
RESEARCH
SITES**

Accel Research Sites is a multi-therapeutic network of clinical research sites dedicated to the expert delivery of treatment options to patients and providers. We partner with the most innovative and significant pharmaceutical, biotechnology, and medical device companies in the world to advance healthcare and wellness in the communities

we serve.

Clinical trials are part of clinical research and at the heart of all medical advances. Clinical trials look at new ways to prevent, detect, or treat disease. Treatments might be new drugs or new combinations of drugs, new surgical procedures or devices, or new ways to use existing treatments. The goal of clinical trials is to determine if a new test or treatment works and is safe. Clinical trials can also look at other aspects of care, such as improving the quality of life for people with chronic illnesses.

Clinical trials offer hope for many people and an opportunity to help researchers find better treatments for others in the future.

Christina has been promoted to Investigator Site Network (ISN) Regional Director for ACCEL in 2020 and has always been an HR and compliance supporter. Because of the strict guidelines in clinical research, Christina has been responsible for ensuring all levels of compliance. She is constantly pro-active about ensuring that all managers are trained appropriately and submitted her topic about Manager Training in HR and Compliance Topics. Christina has always been interested in having managers and leaders trained

since they don't usually get this critical training and she would love Employers to offer manager and leader training. Based on her attendance at the HR Compliance Solutions, LLC training and her selection of her topic for 2020 on Manager Compliance Training, she has earned her spotlight on the HR Compliance Newsletter. We will have a Leadership/Manager Compliance Training in 2020!
