Welcome Letter | Countdown for September 11th, 2025

[Dr. Christine Legner](#), the host of the event held at the University of Lausanne and [Dr. Richard Wang](#), the founder of the Chief Data Officer & Information Quality Symposium, would like to formally welcome Europe's data leaders to 4th CDOIQ European symposium.

Under the theme “**From Data & AI Experimentation to Tangible Impact**” this exclusive event offers insights from **30 data and AI thought leaders** across 3 streams: (1) Evolving Data and AI Strategies, (2) Driving Innovation with Gen AI and AI Agents, (3) Establishing Successful Data Collaboration.

Check [the final list of speakers](#) and [the agenda](#). To get the most out of the symposium, log into [our online platform Whova](#). We look forward to seeing you on the UNIL campus in Lausanne as well as at the post symposium dinner in [Olympic Museum](#) (from 18:30).

Impulses and Working Groups | Get Ready for a New Ways to Engage!

Forget traditional panels! This year, we're kicking off our track sessions with **Impulses: dynamic, five-minute presentations** from up to 5 data and AI experts. Each expert will ignite the conversation with a unique, powerful perspective before rotating between **Working Groups**. You'll be actively participating and shaping the discussion. We'll then cap it all off with a **Debrief** to share key insights and takeaways. This is your chance to get ahead on the following: **How to evolve the data foundation for AI and GenAI? (1), How to drive innovation with agentic AI? (2), How to monetize data collaborations? (3).**

Google Cloud | Why Google Is Uniquely Positioned for Agentic AI

Google Cloud

Google's strength in agentic AI stems from a holistic approach. We offer a complete stack, from foundational AI models to intuitive development tools and robust cloud infrastructure, all tightly integrated within GCP. This empowers you to build powerful Data Agents tailored to your specific needs. Beyond technology, Google possesses unmatched AI expertise, cultivated through years of research and real-world applications across diverse industries. This deep understanding of AI, coupled with our commitment to responsible AI practices, ensures your Data Agents are not only intelligent but also trustworthy and aligned with your organization's values. Learn more about how Google's Agentic AI will transform the business teams [here](#).

Orange Business | Experts in Data, AI & Digital Solutions

Business

Orange Business is an international consulting and systems integration company with offices in Geneva, Zürich and all around Europe. The group specializes in Data Intelligence, CX & Customer Relationship Management, Cloud & Cyber-security with two major directions: Data & Digital. Get more details [here](#).
