Symposium Theme | From Data & AI Experimentation to Tangible Impact

The European Chief Data Officer & Information Quality Symposium (CDOIQ) takes place for the 4th time on **September 11th, 2025** in Lausanne, Switzerland. Under the theme **"From Data & AI Experimentation to Tangible Impact"** this exclusive, invitation-only event offers a unique agenda developed together with European CDO/CAIOs, first-hand insights from **40 speakers and panelists** across three streams: (1) Evolving Data and AI Strategies, (2) Accelerating AI for Innovation, (3) Establishing Successful Data Collaboration, plenty of networking time and an exclusive dinner reception at the Olympic Museum Restaurant.

Limited spots are available, [register asap to reserve](#) the seat for you.

Keynote Speaker | Dr. Thomas C. Redman, the 'Data Doc'

We are thrilled to welcome [Dr. Thomas C. Redman](#), widely known as the "Data Doc", as our keynote speaker. Thomas is an acclaimed thought leader and author of the book **'People and Data: Uniting to Transform Your Business'**, as well as numerous articles in MIT Sloan and Harvard Business Review.

His presentation will focus on **'How to make organizations data and AI-ready'** offering essential strategies and direct recommendations for CDOs and CDA(I)Os to drive data and AI maturity within their organizations. This is a session you won't want to miss!

Platinum Sponsor | Collibra

[Collibra](#) frees your data from the constraints of silos by unifying data and AI governance across your entire ecosystem, regardless of source or compute engine, for ultimate flexibility in how you manage data. Our Collibra Platform gives you automated visibility, control and tracing from input through output, and it automates documentation and data traceability for AI use cases to power speed, data observability and safety. Our semantic graph enriches data context with every use, and our intuitive UX brings technical and business users into the fold to access and steward data. Accelerate and strengthen every data and AI use case when everyone in your organization can trust, comply and consume.

Gold Sponsor | Informatica

[Informatica](#), a leader in enterprise AI-powered cloud data management, brings data and AI to life by empowering businesses to realize the transformative power of their most critical assets. We have pioneered a new category of software, the Informatica Intelligent Data Management Cloud™ (IDMC), powered by AI and an end-to-end data management platform that connects, manages and unifies data across any multi-cloud, hybrid system, democratizing data to modernize their business strategies. Customers in approximately 100 countries and more than 80 of the Fortune 100 rely on Informatica to drive data-led digital transformation.
