

Philadelphia, Pennsylvania
(city, county, state, etc.)

**WILL NOT STAND IDLY BY
WHILE OUR NEIGHBORS'
BLOOD IS SHED**

Today, Philadelphia, Pennsylvania (city/county/state) joins with 142 other jurisdictions across America in combined efforts to make **gun safety and security** the highest priority for the companies that make and sell guns in the U.S. market. We will:

- Issue a [Request for Information](#) to gun manufacturers seeking information on their safety and security products and practices.
- Evaluate and test new gun safety products for possible law enforcement use, as well as civilian use, as they become available.
- Use data to evaluate the safety performance of gun manufacturers and retailers and to hold these companies accountable.
