Marcela A. Baez, Principal

Dear International School of Bellevue Washington,

Thank you so much for your wonderful donations to our students. When the clothing was being distributed to our kids their faces were full of excitement and hope. Many times I have seen the devastation of our families as they struggle to rise above poverty, above violence, above their current educational status, and fight to become legal citizens. A majority of the families we work with have little to no means to empower their children. Your donations, while just clothing to some, have made a world of difference. Our students now have confidence and hold their heads up high. Our students and families living in shelters now have clean clothes to wear outside of school. Due to restrictions with consents and authorization to photograph I am not able to send you pictures with the girls and boys modeling the clothes. However, please know you have enriched their lives. I am forever and always grateful for your donation to our kids. The social worker, Mrs. Ontiveros, and myself spent hours having a fashion show in my office as they tried on their new clothes. Should you ever be in need of supplies or anything please do not hesitate to ask. On behalf of myself and the students/staff of Jane Long Academy thank you so much for your wonderful gifts. Hurricane Harvey may have taken our homes, possessions, and even schools; however, the resilience of the human spirit can not be trifled with or stomped out! Thank you for enabling me to see that humanity is alive and well and with all of us working as one miracles are reality.

Much Love,

D. Brasher RN

D. Brasher BSN.RN

AKA: "Nurse Dori"

Found some pictures I had with no faces showing.

Enjoy! Thank you again! -D-
