

# Buzz Bowl

Let the learning begin!

**Learning Math and Science can be Fun too!**

**Odle Middle School**

**June 10, 2017 ~ 9:00am — 2:00pm**

My name is Aum Upadhyay. I'm an accomplished [national level award winning](#) science student currently in 10th grade at Interlake High School. I created **Buzz Bowl**, a buzzer game to make Math and Science learning fun for **5th-8th graders**. My last event had 100 participants!

**Buzz Bowl** is a Jeopardy style buzzer game that includes multiple choice and short answer questions. Whether your kid is a beginner in science or a whiz going to National Science Bowl, **Buzz Bowl** offers fun and challenge to everyone. In fact, **it just got easier for kids who are beginning to learn science!** Buzz Bowl now has the middle school level study material for all kids. Kids who register just need to pick a subject, study the material I provide to prepare for the game, come have fun and possibly win awards!

**Buzz Bowl is open to 5th — 8th graders.** You can register as an individual looking for a team **OR** as a team of 3 (minimum) to 4 (maximum) students.

- To reserve a seat as an individual (\$15), go to <https://goo.gl/IMBPcr>
- To reserve seats as a team (\$60), go to <https://goo.gl/WqSJML>

Hurry! **The seats are limited and the registration for Buzz Bowl closes on May 21<sup>st</sup>!**

Go to <http://scienceforcommunity.org> to see photos of our hugely successful Buzz Bowl events. If you have any questions, you can contact me at [science4community@gmail.com](mailto:science4community@gmail.com).

**Your participation will benefit the Bellevue Schools Foundation**

**BELLEVUE  
SCHOOLS  
FOUNDATION**
