
Palliative Care Overview Class February 2025

From Yee, Alisa <Alisa.Yee@ucsf.edu>

Date Fri 2025-01-03 11:09 PM

To Yee, Alisa <Alisa.Yee@ucsf.edu>

You are invited to attend a two-day palliative care overview course in February 2025!

Thursday February 20th 8:30-5 pm
Tuesday February 25th, 8:30am-5pm
Location: 2001 The Embarcadero, Room 1100

This course is intended to pique your interest and familiarize you with topics in palliative care. We have many excellent speakers who will present on a range of topics, including racial discrimination in the treatment of pain and access to palliative care, spiritual care in serious illness, serious illness communication, pain and non-pain symptom management, advance care planning, moral distress, burn out and ways to "fill your cup," build resiliency and practice self-care in your work. Best of all, you will hear from a panel of your nursing colleagues who are experts in palliative care!

Note: The class focuses mainly on the adult population, but content is applicable across all nursing practice settings, and all are welcome.

NEW! We will also offer a four-hour breakout session on end-of-life care specific to either ICU or Acute Care/TCU on day one of the class (February 20th). No need to sign up separately.

CEUs:

- If you attend both days of class, including the breakout session you will earn 14 CEUs
- If you attend both days of class, but **skip** the breakout session you will earn 10 CEUs

Breakout sessions:

- For ICU/ED Practice Areas: Attend the Withdrawal of Life Sustaining Therapies session
- For Acute Care/TCU Practice Areas: Attend the Comfort Care Overview session

Please register for both sessions on [Nursing Connect](#)

Search: **Palliative Care Overview for Nurses**

Thank you and we look forward to seeing you there! Please reach out to Tawnya or Elisabeth with any questions.

Tawnya & Elisabeth
