

PHARMACY

Care That Goes Beyond the Prescription

Getting your medications should be simple. Our pharmacy makes it easy and safe.

Free Delivery and Convenient Pickup

Choose what works best for you. We offer free delivery to your home or workplace, or easy pickup at any UCSF Health outpatient pharmacy. We'll reach out through MyChart or by phone to coordinate.

Stay on Schedule

Never run out of your medication. We'll contact you 7–10 days before your next refill is due through MyChart or an automated phone call—so you always have what you need, when you need it.

Connected, Coordinated Care

UCSF Health providers and pharmacists use a shared system that allows you—and your care team—to track the status and history of your prescriptions. That means better coordination, fewer delays, and greater peace of mind.

A Pharmacy Team That Knows You

Our pharmacists and technicians have access to your UCSF Health medical records. They work directly with your providers to answer questions quickly and ensure your care stays on track.

Custom Medications

Need something unique? We have experts who can tailor medications to your specific needs.

More Than Prescriptions: Comprehensive Pharmacy Services

Medication List Review and Education

Our pharmacists can review your full medication list, provide education, and answer your questions—in person, by phone, or via video.

Easy Access to Vaccinations

We offer flu, COVID-19, travel, and other routine vaccines, with simple online scheduling through MyChart.

Smoking Cessation Support

With a referral from your provider, our pharmacists can guide you through quitting, including counseling and nicotine replacement therapy—no prescription required.

HIV Prevention (PrEP/PEP)

With a provider referral, UCSF pharmacists can prescribe and administer PrEP and PEP medications. We work closely with your provider to ensure timely, supportive care.
