

Hello all,

It is my pleasure to be able to join the great school family at St. Francis Xavier. It is my hope that by combining my passion for my Catholic faith and love for Mathematics I can be a great addition to the faculty here at St. Francis.

During my time in college, I worked at my local Boys and Girls Club where I was the go-to staff for Math homework help. It was here my passion for working with students began. After graduating from Bridgewater State University with my degree in Mathematics however, I entered the financial field. During this time my wife and I became youth group leaders at my local parish in Taunton, MA where I re-found my passion for working with youth. It was then I felt the call to become a teacher and obtained my license to teach Middle School Mathematics. In taking a job at a Catholic school it is a great opportunity to not only share my passion for working with youth but to be able to share my strong faith with them as well. I look forward to getting to know each and every one of you and am happy to be a part of such a great school community.

Sincerely,  
Mr. Mitchell Sylvester
