

# "Regulatory Strategy for Drug Development"

## Karen L. Houseknecht, PhD

*Professor of Pharmacology  
Fulbright Senior Scholar in Pharmacology  
University of New England  
Maine, USA*

Dr. Houseknecht served as a Fulbright Senior Scholar in Pharmacology in the Department of Pharmacology, Faculty of Medicine, Universidad Autónoma de Madrid (UAM), January-May of 2023. During her Fulbright program, she taught lectures focused on neuropsychopharmacology, toxicology, drug development and regulatory affairs. Please join us as she presents a lecture on Drug Development and Regulatory Strategy, open to members of the UAM, UNE and partner communities.

### Learning Objectives

1. Increase awareness of the function and scope of the US Food and Drug Administration
2. Understand global regulatory harmonization among regulatory agencies (FDA, EMA and others)
3. Understand stages of the drug discovery, development, regulatory review and approval processes.
4. Explore the concepts of accelerated therapeutic development and regulatory strategy (US and EU)
5. Apply the concepts of regulatory strategy for drug development
6. Increase awareness of career opportunities in regulatory affairs

Wednesday, June 7, 2023 | 16 pm - 17:30 pm (GMT+2) - 10 am - 11:30 am (EDT)
