

CTC-RI Clinical Strategy Committee

Fri, March 20, 7:30-9:00AM - Zoom

Reducing Burnout: Examining Admin Burden and Solutions to Reduce

CSC welcomes [Jane Fogg, MD, MPH](#), Physician Director of Organizational Transformation in Professional Satisfaction at the American Medical Association.

Learning Objectives

- 1) **Define admin burden in clinical practice** and distinguish between direct patient care, indirect care, and admin tasks that contribute to clinician workload.
- 2) **Apply a structured framework (eliminate, delegate, automate)** to evaluate admin tasks and identify opportunities to redesign workflows within their practice.
- 3) **Identify common barriers to reducing admin burden**, including risk aversion, team trust, and consensus-building challenges, and describe strategies to address them in clinical settings.

CME/CEUs will be available
