OFF THE BEADED PATH

3D Christmas Tree Pendant

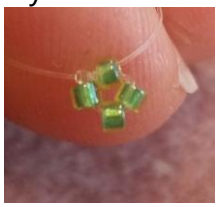

Materials List (Makes 1 Pendant):

*32 4mm Emerald Bicones
*2 4mm Sapphire Bicones
*1-6mm LCT Cube
*20" Illusion Cord
Optional 1 Big Eye Needles
*2 4mm Citrine Bicones
*3 4mm Siam Bicones
*1-5mm LCT Bicone
*Headpin
*2 4mm Tanzanite Bicones
*4 11/0 Green Seed Beads
*2-4mm LCT Bicones

1. Thread a needle onto one end of your illusion cord OR pick up one end of the illusion cord. Thread on 4 green seed beads and let them fall. Leaving a short tail tie the beads together in a circle with a couple of really good knots. These 4 Seed beads are the top of the tree and you will be working your way down.

2. Go through one seed bead next to your knot.

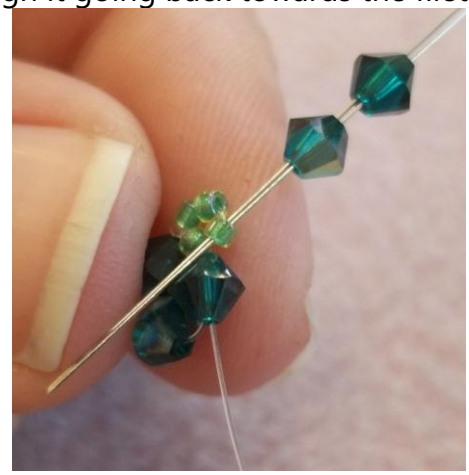

3. Pick up three Emerald bicones. Go back through the same seed bead you are exiting to make a circle.

4. Go through the Emerald right below where your thread is exiting.

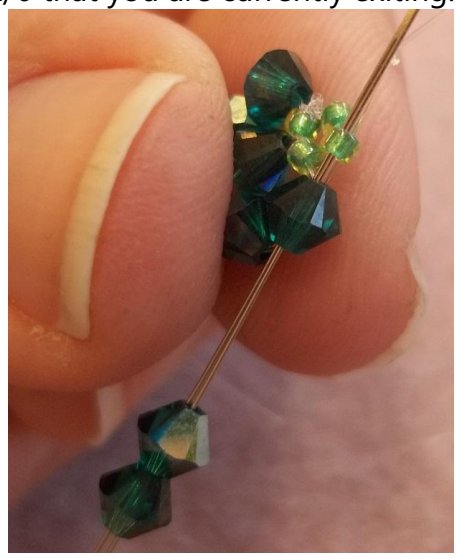

5. Pick up two Emeralds. Go to the next green seed bead in your circle and go back through it going back towards the first set of beads added.

6. Go through the Emerald right below where your thread is exiting, through the 2 beads just added, and then on through the next 11/0 in the top circle.

7. Pick up two Emeralds and go back through the second Emerald picked up in the previous step and the 11/0 that you are currently exiting.

8. Continue on through the Emerald right below where your thread is exiting.

9. Trim off the short tail to get it out of your way.
10. Pick up one Emerald and go up through the first Emerald added in the circle to finish out the last box. Go up through it going towards the top of the tree.

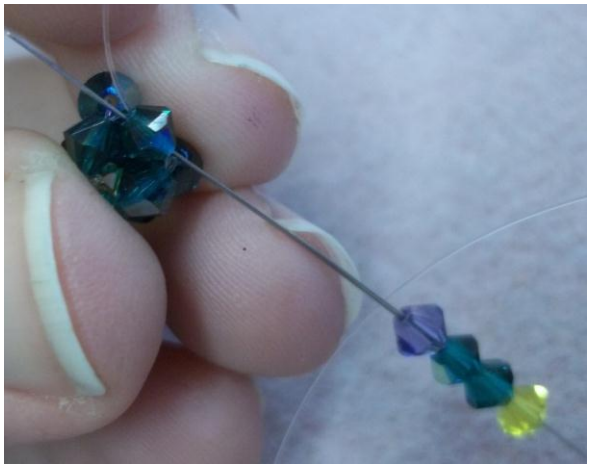

11. To get into position for the next layer you need to be exiting out of the Emerald that you just added. To get there go through the last seed bead on top, the Emerald right below where your thread is exiting, and then through the Emerald that you just added in the previous step.

12. To work the next row you are only going to be working off of the 4 Emeralds that are now at the lowest point of the tree. If you look down on what you just finished you will see the 4 beads. Pick up one Citrine, two Emeralds, and one Tanzanite. Go back through the Emerald that you are currently exiting to make a circle.

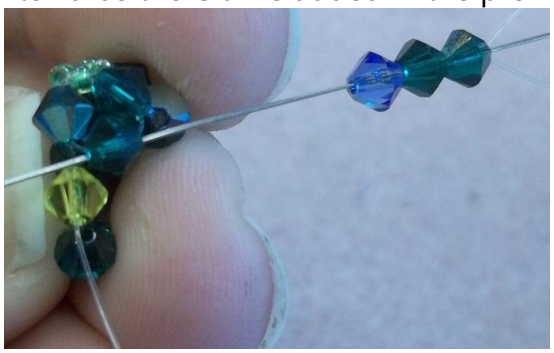

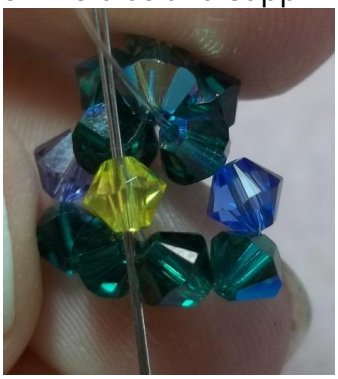

13. Go down through the Citrine just added to get into position for the next step.

14. Pick up two Emeralds and one Sapphire. Go to the next Emerald and go back through it going back towards the Citrine added in the previous step.

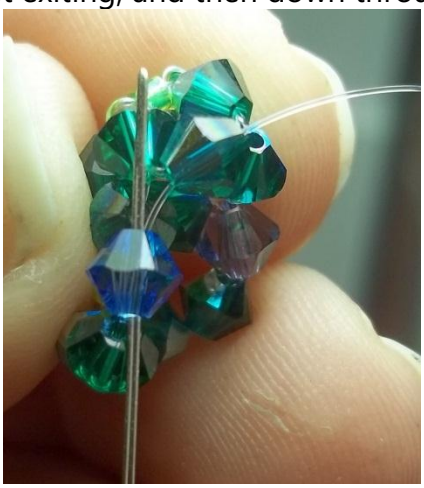

15. To get into position for the next circle, go down through the Citrine, through the two Emeralds and Sapphire just added, and then through the next Emerald.

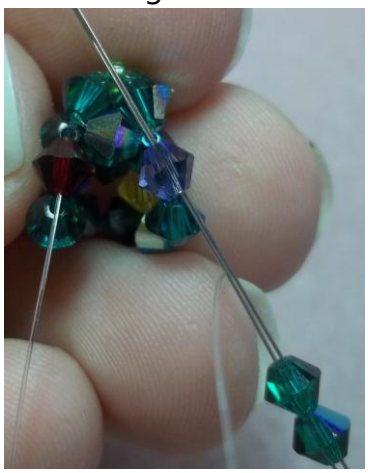

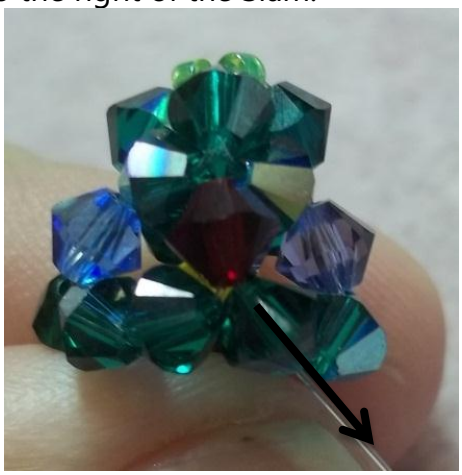

16. Pick up one Siam and two Emeralds. Go up through the Sapphire, through the Emerald that you were just exiting, and then down through the Siam.

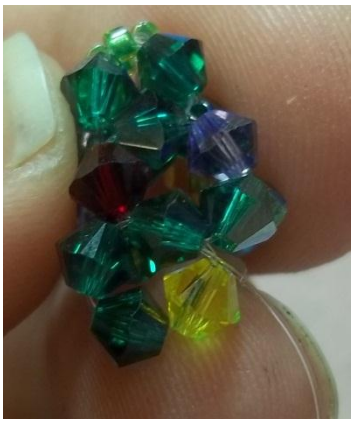

17. To finish up your last circle, pick up two Emeralds and go up through the first Tanzanite threaded on. Continue on through the Emerald, the Siam, and one Emerald next to the Siam. It doesn't matter which direction you go after you exit the Siam but once you start you must continue on in the same direction. In my pattern I will be exiting the Emerald to the right of the Siam.

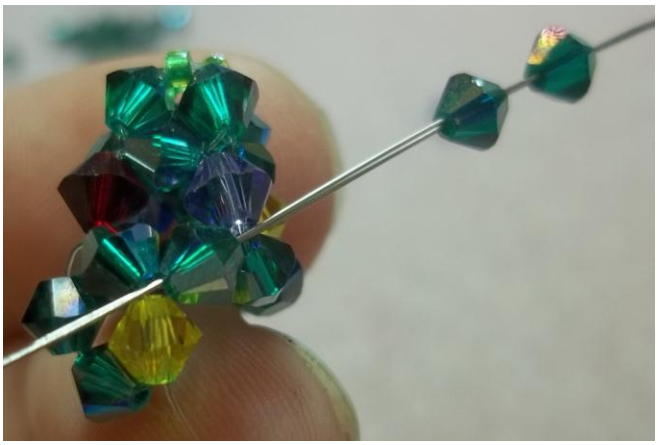

18. Pick up one Citrine and two Emeralds. Go back through the Emerald you are exiting to make a circle.

19. Go down through the Citrine.

20. Pick up two Emeralds and go to the next Emerald and go back through it going back towards the Citrine.

21. Go down through the Citrine, through the two Emeralds just added, and then on through the next Emerald.

22. Pick up one Sapphire and one Emerald and go back up through the second Emerald added in the previous step.

23. Continue on through the next Emerald and Sapphire.

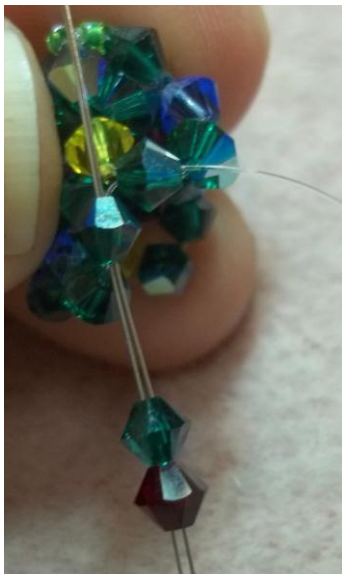

24. Pick up two Emeralds and go to the next Emerald and go back through it going towards the Sapphire.

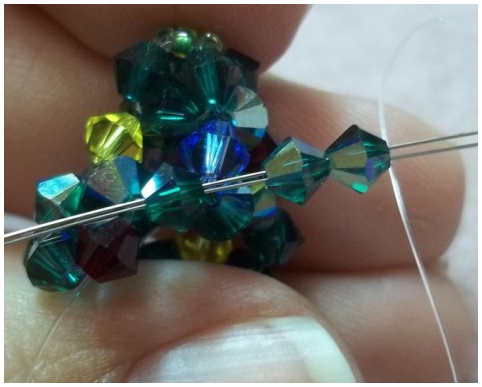

25. Go down through the Sapphire, through the two Emeralds just added, and then through the next Emerald.

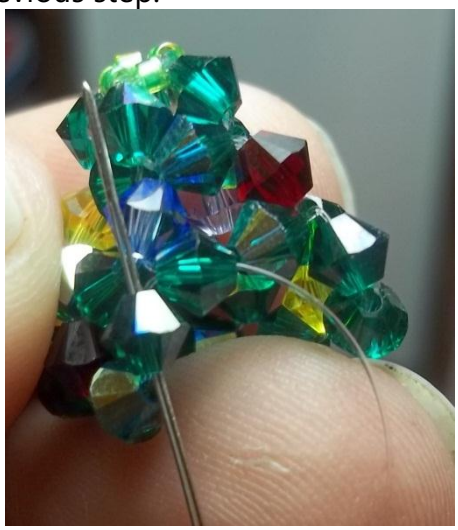

26. Pick up one Siam and one Emerald. Go back up through the second Emerald added in the previous step.

27. Continue on through the Emerald and down through the Siam.
28. Pick up two Emeralds. Go to the next Emerald and go back through it going towards the Siam.

29. Go down through the Siam, through the two Emeralds just added, and then on through the next Emerald.
30. Pick up one tanzanite and one Emerald and go back up through the second Emerald added in the previous step.

31. Continue on through the Emerald and Tanzanite.

32. To finish up the row pick up one Emerald and go up through the first Emerald in the round.

33. Go through the Emerald and Tanzanite and then through one Emerald next to the Tanzanite on the bottom row.

34. Go through the next Emerald. Pick up an Emerald and go through the next two Emeralds.

35. Pick up an Emerald and go through the next two Emeralds.
36. Repeat step 35 two more times and tie the thread off with a couple of really good half hitch knots and trim the tail.

37. On a head pin, thread on one 6mm LCT, one 5mm LCT bicone, two 4mm LCT bicones, the 3D tree, and then a Siam bicone. Make a large wrapped loop at the top.
38. Enjoy your new 3D Christmas tree!

This is an original pattern written by Kelly Dale of Off the Beaded Path on 11/8/2012. You are more than welcome to make these to sell but please give me design credit. Please do not use this pattern to teach classes with unless you have written permission from me. If you have any questions about the pattern please feel free to contact me at off_the_beaded_path@yahoo.com or give me a call at 828-245-0306. Kits and materials for this pendant can be purchased in our etsy store at www.etsy.com/shop/offthebeadedpath I hope you enjoy making this pendant as much as I enjoyed creating it.
