

Benefits of Getting a COVID-19 Vaccine

COVID-19 vaccination is a safer way to help build protection

COVID-19 can have serious, life-threatening complications, and there is no way to know how COVID-19 will affect you. And if you have the virus, you could spread the disease to friends, family, and others around you, even if you have no symptoms.

The COVID vaccine prevents you from becoming seriously ill from a COVID-19 infection

COVID-19 vaccination is an important tool to help stop the pandemic

Stopping a pandemic requires using all the tools we have available. So let's get our vaccine, avoid crowds, continue wearing face coverings, and continue to practice social distancing to keep everyone safe.
