Re: Update to Wholesale customers serviced by DDC

---

Due to the extreme weather situation in parts of the province disrupting some transportation routes, the BC Liquor Distribution Branch (LDB) is proactively advising our customers serviced by the Delta Distribution Centre (DDC) that there is a possibility of temporary service disruptions that could result in delayed deliveries and limited product availability.

The Delta Distribution Centre has regular inventory levels and will continue to service customers in the region with current available stocked product, non-stocked product and bottle picks.

We have been and will continue to make considerable efforts to work with our vendors and freight carriers to maintain regular service levels where possible. We are also kindly asking customers to advise the LDB Wholesale Customer Centre if they have had to temporarily close so that we can halt any unnecessary shipments on their behalf.

We apologize for any inconvenience this may cause. We appreciate your patience and will share more information as it is made available. Please visit the [LDB Wholesale Operations](#) website for the latest updates and contact information.
