

Registration is now open for the PRT Training

Overview of Pivotal Response Treatment for ASD

Hosted by the Virginia Tech Center for Autism Research

Wednesday, October 05, 2016, 9:00am - 3:00pm

Location:

Biocomplexity Institute of Virginia Tech, Conference Center (145)

Presenter: Alexia Boglio *M.A., BCBA—Southwest Autism Research & Resource Center*

The registration link can be accessed at: <http://www.cpe.vt.edu/reg/prt/>

A REDUCED REGISTRATION FEE OF \$55.00 APPLIES TO STUDENTS ONLY

This knowledge-based training will discuss the history of Pivotal Response Treatment (PRT), highlighting motivational procedures to increase communication while decreasing challenging behaviors. The training will include video examples and interactive activities, emphasizing the importance of data collection to monitor progress.

Learning Outcomes

Participants in this session will be trained to:

1. Identify the motivational procedures of PRT.
2. Describe how improvement in communication can lead to a reduction in problem behavior in children on the autism spectrum.
3. Outline the importance of data collection to monitor student progress.

**Cost is \$85 per person for non-student attendees.
Refreshments and lunch will be provided.**

*A certificate of attendance will be provided for all
who complete the program*
