225-Social Ecology-Listening to Community

Start Date: 02/25/2020

End Date: 02/25/2020

No. of Days: 1 Day

Course Level: Intermediate

CEU Credits: 8.00

Class Time: 8:00am- 5:00pm

Tuition: \$265.00 Member/\$330.00 Non-Member

Sponsored By: Chapter 8

Course Description: This course will provide you with those vital leading edge skills to approach community engagement from a unique cultural awareness perspective- putting community first, at the front-end of the project, by actively listening to and engaging with the very people that will be impacted by the project. Participants will learn essential information on how to create authentic community engagement, how to discover human patterns that organically exist in the community, develop solutions to mitigate impact, and how to honestly listen to the people in the community in their own environment by learning how to visit the local restaurants, libraries, schools etc. where "life happens". With this new knowledge gained, infrastructure- based companies will be able to incorporate community needs in the acquisition process.

Instructor:

Kevin Preister is an anthropologist from the University of California at Davis who lives in Ashland, Oregon. For 15 years, Kevin was a social ecology instructor for the Bureau of Land Management's National Training Center in Phoenix, conducting training workshops in rural towns across the West and promoting community-based solutions to natural resource issues. Through James Kent Associates he had numerous contracts to troubleshoot BLM and Forest Service projects using an Issue Management approach. He has also worked for corporations in many locations, helping them to understand and work with communities better, including commercial and residential development, powerline corridors, highways and mining. He routinely works for local governments, a variety of federal agencies, and nonprofit organizations on natural resource issues, responsive governance, poverty reduction and urban redevelopment.
