## **Creating a world of difference for children and their communities**

The ETFO Humanity Fund supports children and their teachers around the world, enriching their lives and the lives of their communities.

The ETFO Humanity Fund is run by a board made up of members of the provincial Executive, leaders from participating locals, and two rank-and-file members of ETFO. Applications for funding are considered for acceptance twice a year, once in the fall and again in the spring. The application is available online, and any registered Canadian charity is welcome to apply to fund projects both in Ontario and around the world.

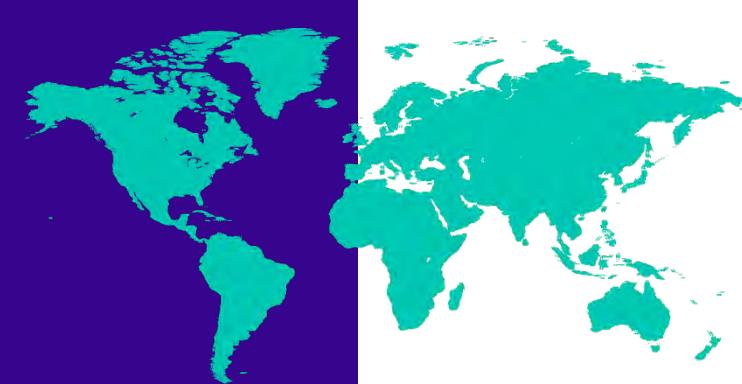

**Let's take a look at some of the charities that the ETFO Humanity Fund supported this year.**

# CODE: promoting every child's right to read

# CODE: promoting every child's right to read

When you can read and write, you can do and be anything. That is the simple, yet powerful, idea behind CODE ~~who are~~ **which is** transforming the lives of over 10 million children through access to great books and great teachers.

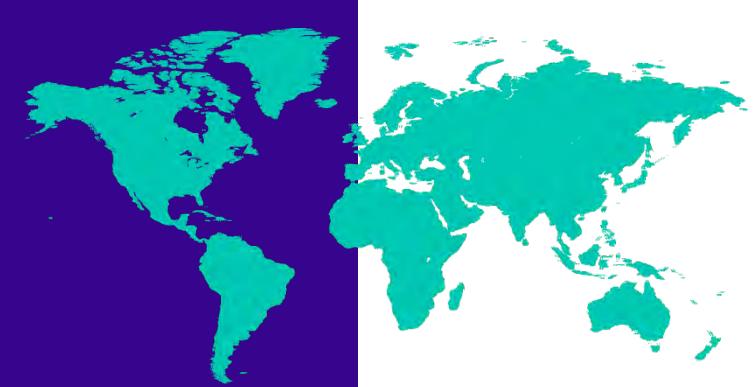

For the last 60 years, CODE has been working towards ~~our~~ **its** vision of a literate world. The groundwork was laid in 1959 when a small group of educators, librarians and publishing professionals launched the *“Books for the Developing World”* project, packaging unused books in tea chests for shipping overseas. Since then, CODE has grown into Canada's leading international development agency focused uniquely on education and literacy.

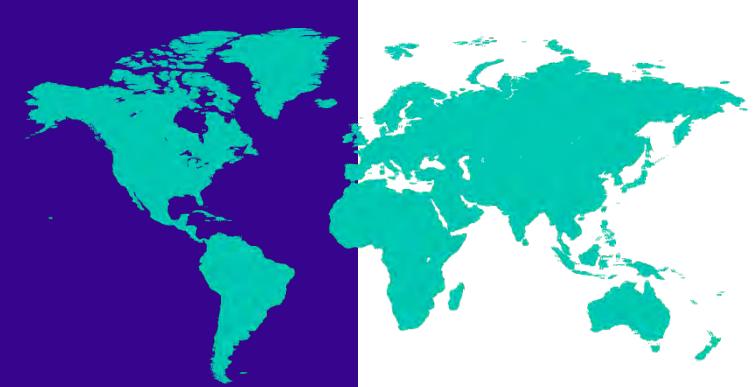

ABLE KIDS REHAB

Able Kids Rehab Clinic was opened in April 2013. The origin of the clinic was in response to the great demand for the service in Malawi, ~~as a lot of~~ **where many** kids with special needs were left unattended. The official name, Able Kids Rehab, came about after looking at the stigma attached to the term disability.

In Blantyre, Malawi, thanks to the vision and tireless devotion of one man, Victor Musowa, children with disabilities are receiving high quality education, therapy, and nutritious meals. And it's not just traditional school-aged children who attend this school. Recognizing the critical role of early intervention therapy this school, the AKF, admits children as young as four months.

# ETFO **HUMANITY FUND**

For most of its history, the ETFO Humanity Fund has been financed through the payroll deductions of members in locals who have chosen to participate. Members from these participating locals have a dime-a-day (\$20 per year) deducted from their salary through an arrangement made with the employer that allows automatic payroll deductions. These funds are then forwarded to the ETFO Humanity Fund by the members' school boards.

In addition, a resolution passed by delegates at the ETFO 2011 Annual Meeting determined that every active member of ETFO contributes 0.0046% of their gross annual salary to the ETFO Humanity Fund.

These are just some of the ways that ETFO members are helping to make the world a better place.
