# ZERO TURN SCANNING PRODUCTIVITY CENTER

## WHAT IS IT AND WHY IS IT SO EFFECTIVE?

The **Zero Turn Scanning Productivity Center** is a single footprint holding table for “to-be-scanned documents”, a receiving table for “scanned documents” and a flat panel display with keyboard/mouse tray. The document handling system utilizes vertical space to achieve one touch document handling. Designed for use with Contex HD Ultra, Ultra X Series, IQ Quattro and IQ Quattro X Scanners, the Zero Turn greatly increases scanning throughput and profits.

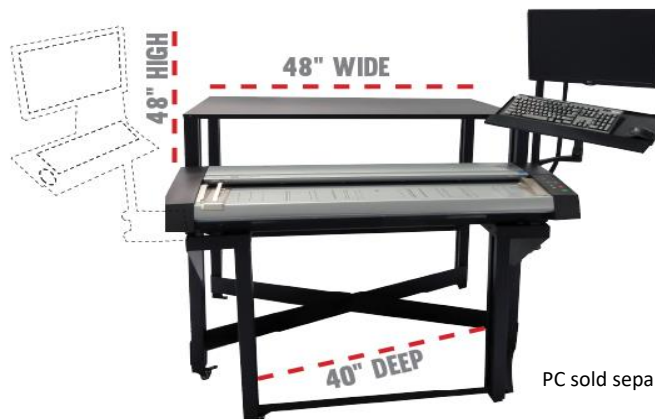

## INCREASE OPERATOR PRODUCTIVITY

- Achieves one touch document handling environment for the scanner operator.
- A productive approach to providing the operator with visual confirmation of scan file quality and easy access to documents, keyboard and mouse.
- Operator can easily load documents into the scanner without losing sight of display monitor.

## Supported Printers with Nextimage Software

About this document.

This document contains a list of printers that are fully compatible with Nextimage software. The printers are compatible with the applications through predefined printer profiles.

Using the Printer Profiles that are listed in this document you achieve optimal printing results by setting the application to the profile that matches your printer model.

If you do not find your relevant printer in the list, you can create your own Printer Profile for the printer through the software or by printing to a hot folder.
