IQ FLEX

IQ FLEX Full flatbed area up to A2/C-size. Scan oversized originals up to A1/D-size.				
Item Number	Product	Description	MSRP	Platinum
CSIQFLEX	IQ FLEX	Sharp focus Contex CIS CleanScan+ technology with up to 1200x1200 dpi optical resolution. Scan A2 / C-size originals in 6 seconds (1). Scan oversized originals up to A1 / D-size. Book scan with automatic page split and spine area removal. Connect to networks via Wi-Fi or LAN. Save your scans directly to memory stick using the high speed USB 3.0 interface Includes 2-Year Spare Parts Warranty	\$6,441	\$4,606

IQ FLEX: The large flatbed surface, a fast scan speed and ultra-flexible design makes IQ FLEX the perfect solution for the demanding user. Protect fragile originals by placing them gently on the scanner bed or utilize its flexibility to scan books, textiles, original artwork any many other types of original. IQ FLEX is the most flexible A2/C-size flatbed in the market and even scans larger documents up to A1/D-size using a clever Oversize scan function.

Nextimage FREE Included with the IQ Flex Scanner

- Scan to JPG, TIF, PDF and PDF/A
- Automatic Image Quality for Cleanup and Rotation
- Integrated Image Viewer
- Automatic File Naming
- TWAIN Driver Included

Powered by 64-bit technology and Wi-Fi enabled

Operate it through the Contex custom 64-bit built-in controller or opt-up to the full professional Nextimage5 award winning software (supported Windows 7/8/10 64-bit OS).

Wi-Fi enabled makes it flexible to connect to your networks (freely choose to connect via Wi-Fi or LAN Gigabit Ethernet).

Optional full featured Nextimage 5.0 Software.

The Market's Most User-Friendly 3D Scanner

The scanner was developed and is marketed by Scan Dimension, a subsidiary of Global Scanning A/S Group of Denmark (Contex, Colortrac). The SOL 3D scanner is small and lightweight, and via its software, notifies users of next steps with sound notifications or text messages. 3D scans can be viewed directly through the SOL software.

The SOL 3D scanner provides an affordable, easy-to-use solution for creating digital copies of real-world objects. It uses a combination of laser triangulation and white light technology. This hybrid approach provides a maximum resolution of 0.1 mm. You can also choose between near and far scanning modes. The SOL features an automatic turntable, making the 3D scanning process automated.

Introducing the SOL Dimension 3D Scanner

SOL Dimension				
Item Number	Product	Description	MSRP	Platinum
7300A001001	SOL 3D Scanner	The SOL 3D scanner is a lightweight, portable device designed for creating digital copies of real-world objects. Software is downloadable and available in both MAC OS and Windows 10 versions.	\$699.00	\$525.00

Warranty is one year parts.

WHAT CUSTOMERS ARE SAYING...

"Just Brilliant. I was able to scan an incredibly small model head with minute details like a clef chin and it was visible in a zoom! Super happy. As reference this was a 1/12 scale human head."
– Customer in Austin, Texas

"The scan quality is great [...], you probably won't find a scanner that is so easy to use then this one. My child uses it without very much instruction. I love the tent is included."
– TrustPilot reviewer

SD One MF

SD One MF				
Item Number	Product	Description	MSRP	Platinum
5300D006004A	SD One 24-inch	24-inch color MF scanner, with color touch screen, edit, annotate and mark up scans, WiFi enabled, track costing with embedded cost recovery software, Canon, HP and Epson drivers included. Scanner hardware pre-activated.	\$3,295	\$2,307
5300D005003A	SD One 36-inch	36-inch color MF scanner, with color touch screen, edit, annotate and mark up scans, WiFi enabled, track costing with embedded cost recovery software, Canon, HP and Epson drivers included. Scanner hardware pre-activated.	\$3,795	\$2,657
5300D007005A	SD One 44-inch	44-inch color MF scanner, with color touch screen, edit, annotate and mark up scans, WiFi enabled, track costing with embedded cost recovery software, Canon, HP and Epson drivers included. Scanner hardware pre-activated.	\$4,450	\$3,115

Scanner stands for SD One MF appear on page 9.

If your customer is considering adding a scanner to an existing printer to create a full MFP system, then the SD One MF should receive critical consideration. The SD One MF is a self-contained scanner and controller, so no additional PC is needed. The controller contains an intuitive touch screen for simple operation which includes red-line markup and is WiFi enabled. It fits nicely on top of the HP T-Series printers without a stand, however, high and low stands are available as an option. Call AZON for further details.

The SD One MF natively supports HP PageWide Series printers.

PLEASE NOTE:

Standard freight fees apply to all Contex shipments. Please contact National / AZON customer support for freight quotes.

Limited access facilities may incur additional freight fees.

ZERO TURN SCANNING PRODUCTIVITY CENTER

WHAT IS IT AND WHY IS IT SO EFFECTIVE?

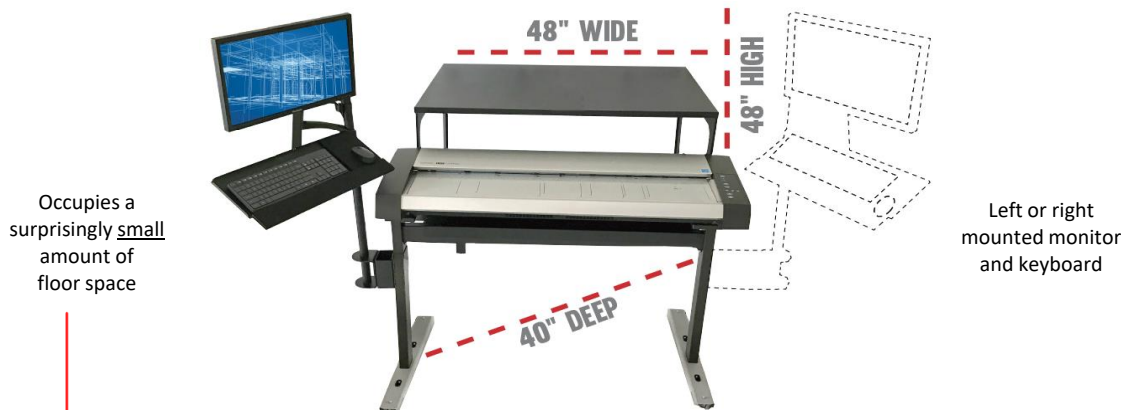

The **Zero Turn Scanning Productivity Center** is a single footprint holding table for “to-be-scanned documents”, a receiving table for “scanned documents” and a flat panel display with keyboard/mouse tray. The document handling system utilizes vertical space to achieve one touch document handling. Designed for use with Context HD Ultra, Ultra X Series and IQ Quattro Scanners, the Zero Turn greatly increases scanning throughput and profits.

INCREASE OPERATOR PRODUCTIVITY

- Achieves one touch document handling environment for the scanner operator.
- A productive approach to providing the operator with visual confirmation of scan file quality and easy access to documents, keyboard and mouse.
- Operator can easily load documents into the scanner without losing sight of display monitor.

Zero Turn Scanning Productivity Center				
Item Number	Product	Description	MSRP	Platinum
ACM-ZTSPC-U	Zero Turn Scanning Productivity Center	ZTSPC: Single footprint holding table for originals and receiving table for completed scans. Includes 22" monitor, wireless keyboard and mouse. Supported Printers with Nextimage 5 Software

About this document.

This document contains a list of printers that are fully compatible with Nextimage software. The printers are compatible with the applications through predefined printer profiles.

Using the Printer Profiles that are listed in this document you achieve optimal printing results by setting the application to the profile that matches your printer model.

If you do not find your relevant printer in the list, you can create your own Printer Profile for the printer through the software or by printing to a hot folder.

Procedure for Contex Spiff Collection

Please follow the instructions and rules set forth below for collecting advertised promo spiffs on Contex products:

Apply in **3 easy steps** online at: <https://azon.com/spiff/>

- 1** Make sure to fill out ALL fields.
- 2** a) Please upload a copy of the qualifying End User purchase order for the Contex promo item.
and
b) Please upload a copy of your qualifying National / AZON invoice.
- 3** Submit your request.

Once you receive the Feedback below,
you can sit back and wait for your card to arrive!

Spiff amounts are supplied in the form of a pre-loaded, one-time use, VISA debit card.
Spiffs are processed once a month, and approved cards will be placed in the mail.
The entire process can take six-eight weeks depending on claim cycle submission.

PLEASE NOTE!

Spiffs must be applied for within 30 days of invoice from National / AZON.

***Contex Spiff Reward Program Visa cards are considered *taxable* income.**

Please contact your National / AZON representative for details.

1148 Rochester Road ▲ Troy, Michigan 48083 ▲ Ph: (800) 260 - 0839 ▲ Fax: (248) 415-3859
