

## **My health insurance company letter says it isn't offering my same plan. What are my options?**

If your insurance company letter says they aren't offering your plan or a similar plan through the Marketplace in your area as before, you'll be matched with an alternate plan. Update your Marketplace application and review all plans available to you for next year. When updating your 2024 Marketplace application, indicate that you're losing your 2023 health coverage December 31.

You have through January 15 to change plans for 2024, even if you're automatically enrolled.

If you have questions about your plan's availability for 2024, call your current health insurance company.
