

Supporting Southern CA Wildfire Recovery Together

To help those affected by the Southern CA Wildfires, CBHA has been working diligently to cultivate housing and well-being resources tailored to the immediate and long-term needs of wildfire survivors. These resources are available to assist with housing stability, mental health support, and access to essential services.

We encourage you to share these resources with your networks to ensure they reach those who need them most. Together, we can amplify our collective efforts to provide relief and hope to our community members.
