

# Farm Machinery Operator

Seeking a farm machinery operator who would assist with the equipment maintenance, repairs, and field operations on a progressive corn and soybean farm in northern Illinois.

Responsibilities would include:

- Assist with field work activities on the farm including tillage work, planting, spraying, and harvesting.
- Assist with input tendering and grain hauling with semi-tractor trailers
- Maintain adequate cleanliness of equipment, shop, and workspaces
- Assist in overall farm safety program

Required qualifications:

- Minimum of 2-year degree, preferably in an area of agricultural related studies or trade school
- Work experience on a farming operation
- General knowledge of equipment maintenance
- A good driving record and willingness to obtain a Class A CDL.
- Experience with operating various farm equipment, which may include combines, planters, sprayers, and/or tillage equipment
- Familiarity with precision agricultural equipment

Compensation:

- Salary commensurate with responsibilities and experience
- Bonus possible based on performance of both this position and the company as a whole

Benefits:

- Paid vacation and holidays
- Health insurance stipend
- Company provided mobile phone stipend
- Company provided training and educational programs
- Gain hands on experience in all aspects of a progressive and innovative farm

General Comments:

- This farm machinery operator must be hands-on and willing to assist with the various activities of this farm operation.
- Applicant must be willing to be away from home during the planting and harvest seasons. This farm has multiple production sites that are two hours apart. Operators may be required to stay at various sites during the week and return home on weekends throughout the calendar year.
