## Introducing the Viking Pure Clean, Non-Toxic Cleaning & Disinfecting Solutions Generator

We are honored to introduce our Electrolyzed Water, **Non-toxic Cleaning and Disinfecting System**. Most senior care leaders are struggling to respond to COVID-19. We are partnering with facility leadership teams and stakeholders to help them craft a response so they can protect residents, staff and their families now and moving forward. See how another leading senior care community is using our system: [thehearth.net/viking-pure/](http://thehearth.net/viking-pure/).

Our **Green Technology** allows you to produce your own powerful cleaning and disinfecting solutions **on-site** thus eliminating restocking and a large portion of your carbon footprint, while removing dangerous cleaning products from your facility. **Self-generation** means you will never run out and you can make as much as you need for just pennies a gallon.

Our **"Pure San"** disinfecting solution is **80x more powerful than bleach** and is completely non-toxic. It is so safe that it can be used anywhere and at any time with no risk to guests or staff. For "fast kill times" for the most problematic bacteria, viruses, germs and fungi (mold) see *microbial test data on page 2*. View our video: [www.youtube.com/watch?v=ulMwB3N9Vlc](http://www.youtube.com/watch?v=ulMwB3N9Vlc)

The 11pH **"Pure Clean"** cleaner and degreaser easily removes all dirt and bio-film, soap scum, food grease and natural oils and also makes glass, granite countertops, chrome, stainless and porcelain surface sparkle like new, while repelling fingerprints, keeping high traffic areas fresher. View our video: [www.youtube.com/watch?v=xiXP4WDeLyc](http://www.youtube.com/watch?v=xiXP4WDeLyc)

**Protect your residents and employees** from all food borne illnesses including E.coli, norovirus and salmonella. **By eliminating all pathogens**, you not only protect your guests from illness, you eliminate the bad odors that can cause complaints. View our video: [www.youtube.com/watch?v=Ta9K5XnZQzg](http://www.youtube.com/watch?v=Ta9K5XnZQzg)

Our electrostatic-spray delivery system is state-of-the-art, allowing complete disinfection of all guest or resident/patient areas. From waiting rooms to dining rooms, from gyms to bathrooms, you can count on Viking Pure on-site generated solutions to quickly and safely decontaminate all surfaces and fabrics, including bedding, draperies and fine rugs. The incredible efficiency of these sprayers can cut disinfecting times by more than half, saving countless labor hours.

### Benefits Include:

- Nontoxic & Chemical Free (food safe)
- Environmentally Friendly & Safe
- Green Seal Certified
- FDA Approved EPA Registered
- Safe for Children & Pets
- 80X More Powerful Than Bleach
- Salt Free (Non-Corrosive)
- Wool-Safe Certified / Scent Free & Cost Effective
