Debbie,

As you know I suffered a fracture of a vertebrae in my spine last October of last year requiring me to wear a brace for 3 months. The good news is in January I was given release from my doctor, the bad news is there are other issues in my lower back that have been gradually getting worse over the last few years. Janice has a similar problem but needs attention in the next few months. So given this unfortunate news we have decided to put our Rving off to hopefully sometime in the future. We have listed our Airstream and new Ford Truck "For Sale" and ask you to notify others of our change in status with the group. I have provided links to the ads on Airstream Classified and would appreciate sharing with the members should they or any of their friends have interest in buying.

2015 Airstream Flying Cloud 30FB Bunk

2018 Ford F250 Super Duty

<http://www.airstreamclassifieds.com/ads/ford-f250-super-duty-crew-cab/>

We want to thank the group for making us feel welcome, it is unfortunate that we have to put things on hold to address some health issues. If you have any questions please call me using the cell number listed below.

Warmest Regards,
Wayne R. Prentice
