FAA Logo Usage Guidelines

This logo is a trademark of the Florida Apartment Association. It may be displayed in color (download here) or in black and white (download here). The FAA logo should only be used at 100% saturation. The FAA logo should never be reduced to a size that will render it illegible.

You may use the logo without "Florida Apartment Association" (download here) only when "Florida Apartment Association" already appears so prominently that inclusion of the name with the logo would appear redundant. Please share any use of the logo without "Florida Apartment Association" with FAA in advance of usage.
