

Longleaf Academy: F201 Fire & Longleaf

Fire & Longleaf will train prescribed burners how to achieve more desirable effects when managing with fire. This course is designed for students with some prior experience and focuses on the longleaf-specific considerations to address when planning to burn. Weather permitting, there will be a tour of local forests being managed with frequent fire.

Topics covered:

- fire ecology
- burning young longleaf
- ignition patterns
- fireline tools
- burn planning
- fire weather parameters
- smoke management
- returning fire to long-unburned stands
